

# Ice for Workplace Hydration

CHEWBLET® ICE, WATER, AND SPARKLING WATER IN ONE DISPENSER

7 SERIES | 15 SERIES | SYMPHONY PLUS™

**FOLLETT®**

# Innovative solutions, inspired by ice

Chewblet® ice, water, and now the newest addition, **sparkling water** – Follett has an ice and water dispenser solution for every hydration need.

From its beginning in 1948, Follett has led the ice industry in manufacturing quality, innovative products. Follett ice and water dispensers exclusively feature Chewblet ice, a bite-sized nugget that adds a whole new dynamic to drinks. Enjoying iced coffees, teas, and other healthful drinks has never been more fulfilling.

With over 50 models to choose from, Follett makes an ice and water dispenser for every application. Exclusive features include “install anywhere” drainless designs, countertop models that fit neatly under overhead cabinets, sanitary dispensing, and now sparkling water.

When you buy a Follett dispenser, you are buying Follett’s commitment to quality, durability, and unsurpassed performance. Welcome to the Evolution of Refreshment!

**SPARKLING  
WATER**

Chewblet ice,  
water, and optional  
sparkling water  
in one dispenser.

**WATER**

**7 SERIES**

The 17.5" tall 7 Series is the only ice and water dispenser designed to fit under overhead cabinets. All 7 Series models feature 7 lb of ice storage in a compact footprint to provide the maximum amount of ice in a minimal space.

**7 SERIES UNDERCOUNTER**

The 7 Series undercounter models, available in both standard height and ADA height to fit under 34" high counters, can easily replace 15" wide open bin undercounter ice machines for more sanitary dispensing of ice.

**15 SERIES**

15 Series ice and water dispensers are nearly identical to the 7 Series, but are slightly taller and hold 15 lb of ice in storage for higher-volume applications.

Features and Benefits

**Powerful**

Efficient, air-cooled ice machine produces up to 125 lb daily of Chewblet ice

**Sparkling**

Select models now feature cold sparkling water in addition to cold, still water and Chewblet ice

**Sanitary**

Capacitive touch dispenses directly into your cup to avoid contamination caused by scoop-type machines. All Follett dispensers are certified by NSF

**Compact**

Less than 15" wide and 23" deep, Follett 7 and 15 Series dispensers deliver the most ice available anywhere in such a small package

**Drainless**

Installs anywhere a 1/4" water line can be run, eliminating the installation costs and hassles associated with drains

## Freestanding Models

Both 7 and 15 Series models are available with a matching base for additional installation flexibility (shown with optional 6" legs)

### Antimicrobial

Key components protected with silver-based antimicrobial to inhibit growth on treated surfaces

### Leak detection

Sensors in the base protect the machine from water leaks

### Sustainability

Uses up to 50% less electricity and up to 70% less water to produce ice than similar-sized, cube-type ice machines

### 8.5" dispense height

Fits most commonly used drinking cups and glasses

### Removable drip tray

Holds up to 20 oz before signaling "EMPTY DRIP TRAY"

### Fully assembled

Requires just two easy connections for standard plug-in 115V electric and 1/4" water line

### Optional filtration available

Choose from a number of Follett internal or external filter options designed for ice machine use

### Energy efficient

Meets the Consortium for Energy Efficiency (CEE) Tier 2 specifications for highly efficient ice machines

### Simple cleaning procedure

Can be cleaned by anyone without the use of special tools in less than 1 hour

**12 SERIES**

Only 16.12" wide, the 12 Series has the industry's most compact footprint for a 425 lb per day ice and water dispenser and offers 12 lb of ice storage

**25 & 50 SERIES**

Offering 25 lb and 50 lb of ice storage to match with the 425 lb per day production for higher-volume applications

**110 SERIES**

In addition to offering 90 lb of ice storage for servicing large applications, the 110 Series, like the 25 and 50 Series, features a removable ice making module for ease of service and replacement

**Features and Benefits**

**Powerful**  
Up to 425 lb of ice per day – over 17.5 lb per hour – of Chewblet ice production

**Modular**  
25, 50, and 110 Series all feature removable ice modules for ease of service

**Sanitary**  
One-hand lever or SensorSAFE™ infrared dispense eliminates unsanitary scooping of ice

**Efficient**  
Continuous ice making process uses less electricity and water and meets Consortium for Energy Efficiency Tier 2 specifications

**Easy to Service**  
Semi-automatic cleaning and sanitizing process reduces preventive maintenance time to approximately 1 hour

## Freestanding Models

All Symphony Plus™ dispensers are available either as countertop models or freestanding. Freestanding units offer several filtration options with factory-mounted filters conveniently located in the base.

### Space-saving designs

The most compact footprints in the category

### Sizes and configurations

Countertop and freestanding models available to fit every application from small work groups to facilities with up to 350 employees

### Infrared SensorSAFE™ or lever

Dispensing options put ice directly into your cup and avoid contamination associated with scoop-out ice machines

### Antimicrobial

Key components protected with silver based antimicrobial to inhibit growth on treated surfaces

### Quiet Night™

Sleep mode feature reduces ice machine cycling and energy consumption during off hours

### Sustainability

Uses up to 20% less energy and up to 40% less water to produce ice than similar-sized, cube-type ice machines

### Filtration

Freestanding units offer several filtration options including factory-mounted filters conveniently located in the base

### Automatic self-flushing

Water system regularly expels minerals and impurities for lower maintenance costs and better-tasting ice

### Quality

Every Follett dispenser passes rigorous testing and inspections, and is covered by the industry's best warranty and support program

## Integrated icemaker with bin

Compact, 24" wide integrated icemaker with bin makes up to 425 lb of ice per day with 75 lb of storage capacity in an undercounter package when installed without legs. Perfect solution for facilities that want the benefit of customer-preferred Chewblet ice and need the maximum amount of ice available while conserving valuable counter space.

## Vision™ ice and water dispenser with undercounter ice storage

Minimize the amount of visible equipment to make an elegant impact. Up to 150 lb of ice storage can be hidden below the counter. A Satellite-fill™ / RIDE® ice machine can be added to automatically fill the dispenser.

# THE FOLLETT ADVANTAGE

## Chewblet ice

Customer-preferred Chewblet ice makes all drinks more enjoyable and promotes better hydration.

## Sparkling water

Delicious sparkling water is an option for select 7 and 15 Series dispensers.

## Filtration systems

Follett offers a complete line of filtration systems designed for use with ice and water dispensers.

## Simple maintenance

Each ice and water dispenser features a cleaning system designed to minimize the effort required to clean and sanitize the machine.

## Built to last

Industry-exclusive features include proprietary jacketed evaporator assemblies to maximize heat transfer and increase efficiency. Follett supports every product with parts availability for 15 years after product discontinuation.

## Better sanitation

Sanitary dispensing helps prevent contamination associated with scooping ice by hand. All Follett dispensers also feature antimicrobial protection in critical areas to inhibit the growth of bacteria on treated surfaces.

---

## Warranty and support

Industry professionals specify Follett products because of our exceptional service and support programs including factory-direct technical support, free technical seminars, and comprehensive service manuals and videos.
